PDFs are extremely useful files but, sometimes, the need arises to edit or deliver the content in them in a Microsoft Word file format. You will need to repeat the conversion process by uploading the PDF again and waiting for conversion to finish. To do this, click File, and select Export To. There are several options here to choose from. If you'd like to convert the PDF into a Microsoft Word format, select Microsoft Word and then choose either Word Document (to create a modern ".docx" file) or Word 97-2003 Document (to create an older ".doc" file). If you'd like to convert the PDF into a spreadsheet format, select Spreadsheet choose Microsoft Excel Workbook or XML Spreadsheet 2003. You can even convert a PDF into a Microsoft PowerPoint Presentation by choosing this option from the Export As menu. Use Rich Text Format if you'd like to convert the PDF into an ".rtf" document format, while choosing Text will create a text file. There are other options on the Export As menu as well. Choose a Save as Other Setting if you'd like to simply convert the current PDF file into another PDF file with different settings and attributes, then use the File > Save as Other menu. To get started, simply launch Adobe Acrobat DC, and then click File and then select Open. Use the first option, which delivers a ".docx" file, for most modern users or choose the second option, which supplies a ".doc," if you have a specific need to save the PDF in Microsoft's older Word format. Open Microsoft Word, and then open the PDF file you intend to convert; Word will automatically convert a copy of the PDF into an editable Microsoft Word format. This process may work better if the PDF you're attempting to convert is mostly text. Option B: Using Microsoft Word, Part 2 To start, open Microsoft Word, and then open the PDF file you would like to convert. Yes, you can convert large PDFs to DWG for free on our website.
